Los Angeles, CA | 213-550-729 | aarontia09@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

## Profile

---

Front end developer with two years of experience building various applications involving translation of design templates to responsive websites, implementation of useful features, optimization of user interfaces, and experimentation with new technologies.

## Technical Skills

---

**Languages:** JavaScript (ES6), HTML, CSS, C++, and Java

**Frameworks/Libraries/Versioning:** React, Bootstrap, Webpack, and Git

**Other:** Figma, Photoshop, and Netlify

## Projects

---

[Protagonist](#) | [GitHub](#)

Winter 2022

- Built a one-page E-commerce website with **HTML, CSS, JavaScript, and Bootstrap**.
- Utilized **Isotope JavaScript** to create a responsive product layout that can accommodate multiple modes.

[Essential Aesthetics](#) | [GitHub](#)

Fall 2021

- Created a responsive dermatology website with **JavaScript, HTML, and CSS** for a client.
- Enabled users to sort and search through items. Breadcrumb links included for easier navigation.
- Implemented session storage to dynamically load recently and currently selected product with a description.

[Disflex](#) | [GitHub](#)

Fall 2021

- Experimented with **JavaScript, HTML, and CSS** to create a flexbox reference simulator.
- Displayed CSS snippet that updates when a flex property is hovered or clicked.

[Minus Minus](#) | [GitHub](#)

Spring 2021

- Collaborated with a peer to create an interpreter that parses equations and executions functions for a new programming language based on **C++**.
- Resolved issues of operator precedence, line management, and function calls with multiple stacks.

## Education

---

**Glendale Community College**

February 2022

Degree: AS in Computer Science, GPA: 4.0

**University of California, Santa Barbara**

June 2017

Degree: BA in Art, GPA: 3.4

## Work Experience

---

**Starbucks Corporation** | Barista Trainer

September 2017 to Present

- Guide continuous learning of incoming and current employees to ensure operational excellence.
- Modify day to day operations of customer support queues by optimizing beverage sequencing through prioritization, ensuring accurate data entry of order specifications, and resolving customer issues by providing working solutions.
- Manage cash distributions for tips on a weekly basis and address any discrepancies with compensations.
